

## Separations | GC Column BPX-DXN

More than five decades of innovative phase technologies and unique fused silica production capabilities, together provide end-to-end separation solutions for all applications.

### Features and benefits

- High temperature.
- Very low bleed – ideal for trace analysis.
- Non-polar.
- Extremely inert.
- Ideal for GC-MS.

### Recommended Applications

Dioxins and related compounds (POPs, PCBs, PCDFs, PCDDs).

### Product specifications

Suitable replacement for: no equivalents, unique high temperature column.  
Operating temperature: -40 °C to 360/370 °C.
